

# LED Name Badge

Version 2 of our popular edge lit LED Name Badge.

Written By: Joshua

---

## INTRODUCTION

Version 2 of our popular edge lit LED Name Badge.

This is an inexpensive, quick, and fun way to make a light up name badge. Just etch your name onto an acrylic blank using a safety pin, pop an LED in, and show off!

Watch our guide or download our PDF directions.

If you want to laser cut your own blanks out visit our [GitHub Repo](#).
