

How to Edit the Display Title of a Wiki

This guide demonstrates how to edit the title of an Item or Wiki.

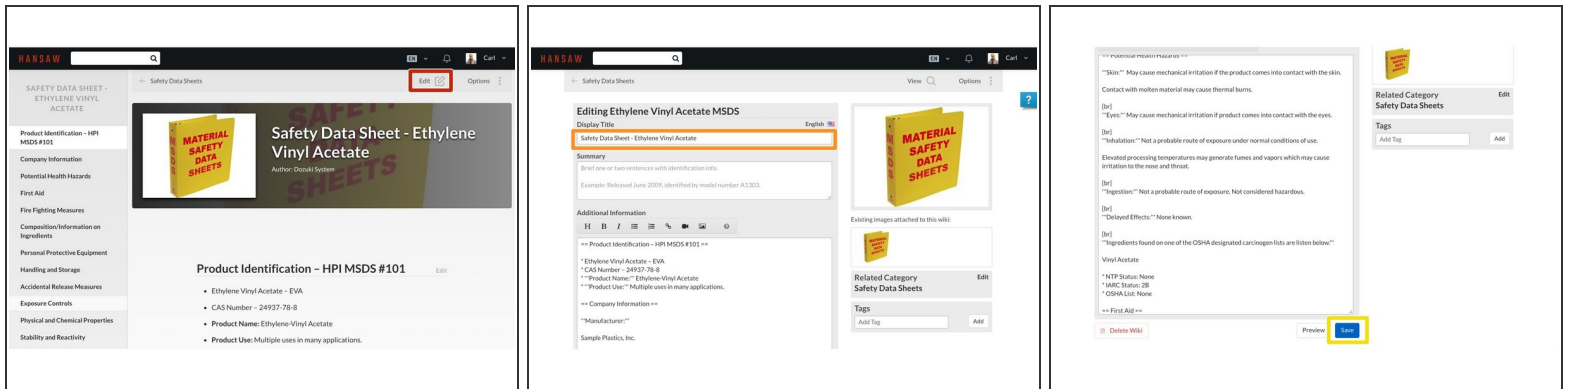

Written By: Dozuki System

INTRODUCTION

This guide demonstrates how to edit the title of an Item or Wiki.

Step 1 — How to Edit the Display Title of a Wiki

- Click on the **Edit** button in the upper- right corner of the page, just beneath the site header.
- Highlight the text under the **Display Title** section and type in the name of the new title.
- Scroll to the bottom of the page.
- Click **Save**.
 - You should now be able to view your new title.
- **i** Note that the page title will not change in the URL.
