

Delete Existing Input

Delete an Input from the list.

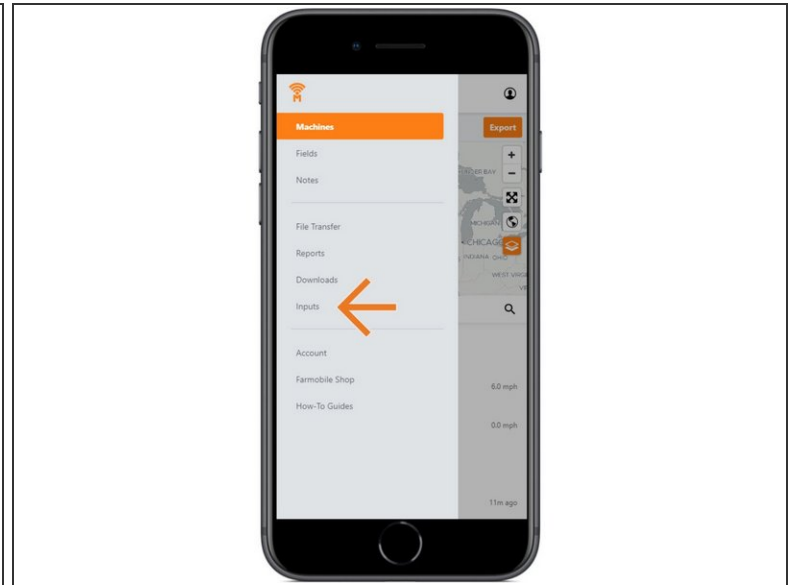

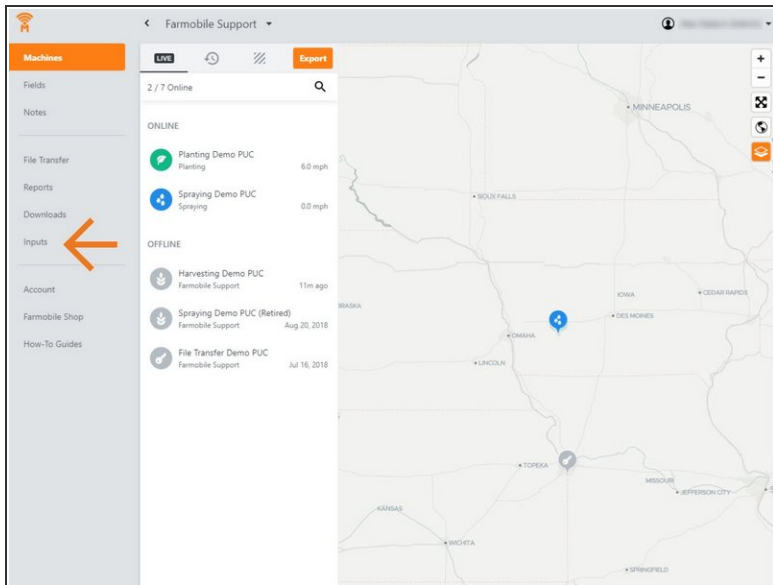

Written By: Support

 A screenshot of the Farmobile mobile application interface. The app is titled "Farmobile Support" at the top. On the left is a navigation menu with options: Machines, Fields, Notes, File Transfer, Data Import, Reports, Downloads, **Inputs** (highlighted in purple), Account, Farmobile Shop, and How-To Guides. The main content area is divided into two sections: "FILTER INPUTS" and "SEED VARIETIES". The "SEED VARIETIES" section lists several entries, each with a crop type, year, brand, and RM value, and a green status indicator. The "EDIT SEED VARIETY" dialog box is open on the right, showing fields for "Crop Type" (set to Corn), "Crop Year" (set to 2019), and "Brand Name" (set to Dekalb). The "Seed Variety Name" field is also populated with "DKC27-55RIB". At the bottom of the dialog are three buttons: "Save" (orange), "Cancel", and "Delete Variety" (red).

INTRODUCTION

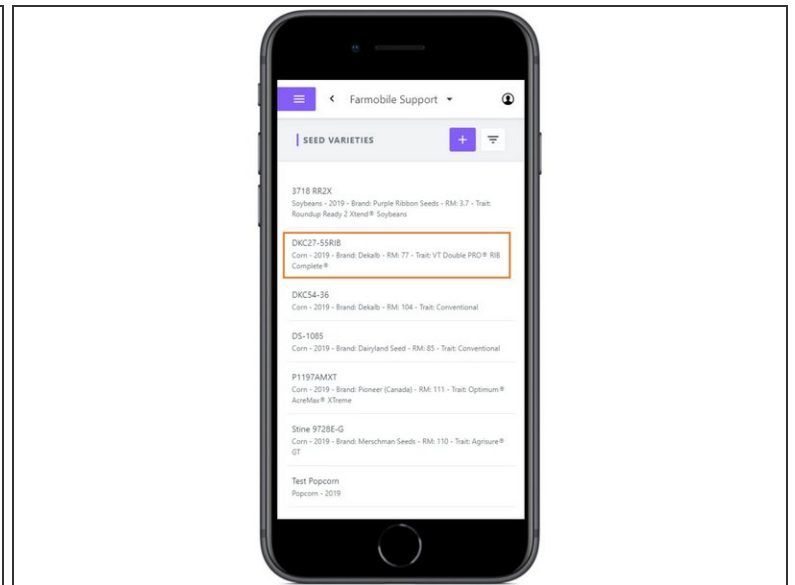

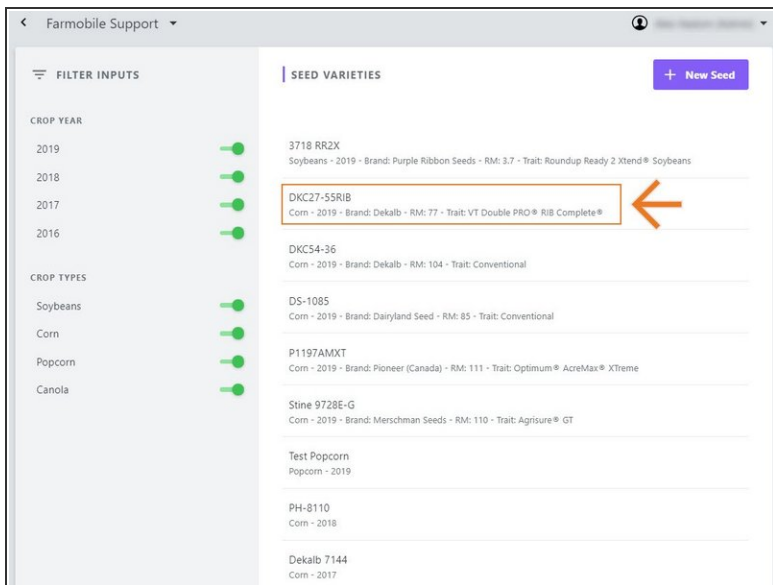

- User has the ability to delete an existing input.
- If the input is associated to an EFR you are not allowed to Delete it.

Step 1 — Select Inputs from the Farmobile DataEngineSM Menu

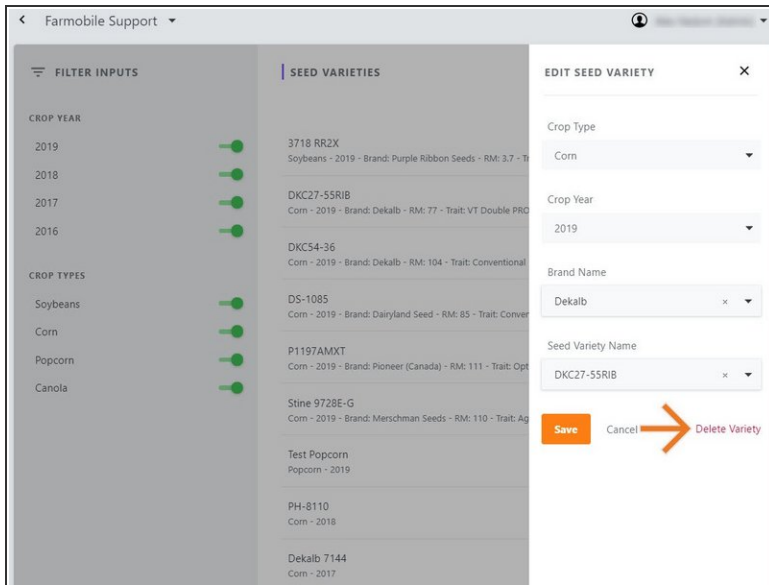

- Selecting Inputs from the Farmobile DataEngine menu will open the Inputs page with all of your inputs listed to review.

Step 2 — Select an Input from the list

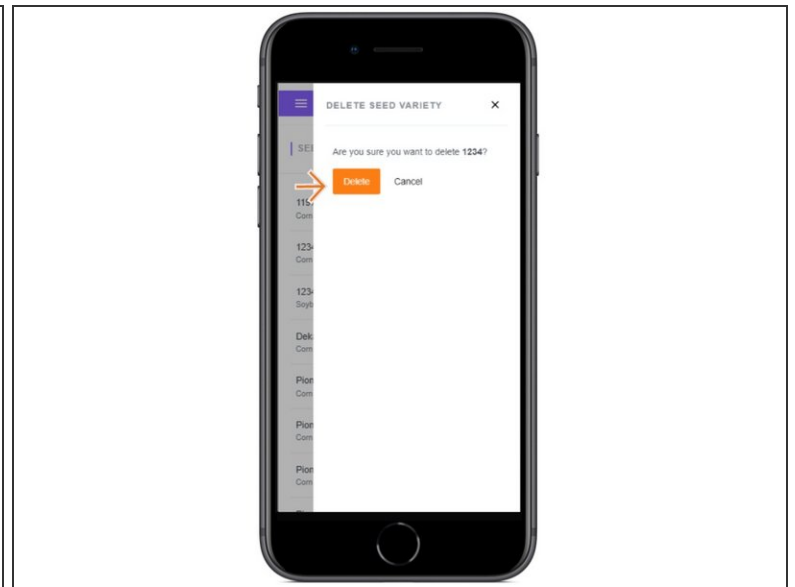

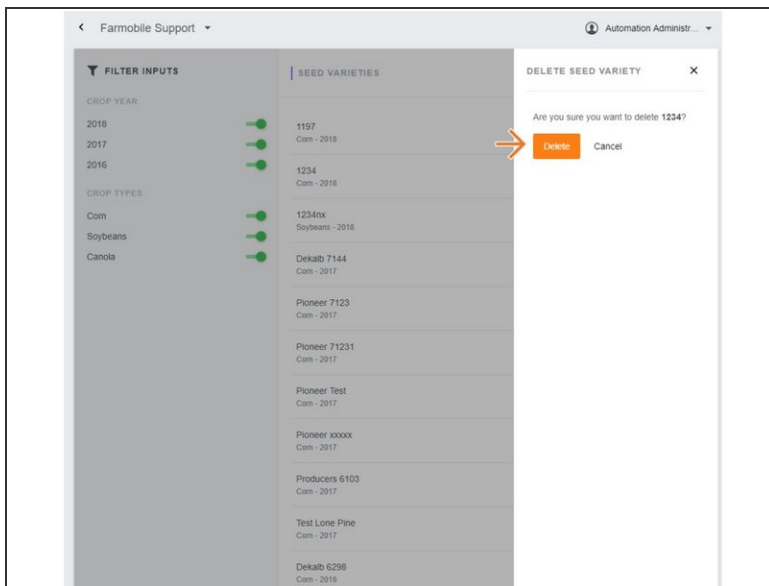

- Select an Input record to open the Edit Seed Variety window.

Step 3 — Select Delete Variety

- Within the Edit Seed Variety window, select 'Delete Variety'.
- **NOTE:** If an input is associated to an EFR you are **NOT** allowed to delete it.

Step 4 — Confirm and Delete

- Confirm that you want to delete the selected 'Input'.
- Select 'Delete' to remove the Input record from your Input list.
