

Accessing Microsoft PowerPoint Online

This guide will guide you through accessing the online version of Microsoft PowerPoint provided by Office365.

Written By: Wayne Peterson

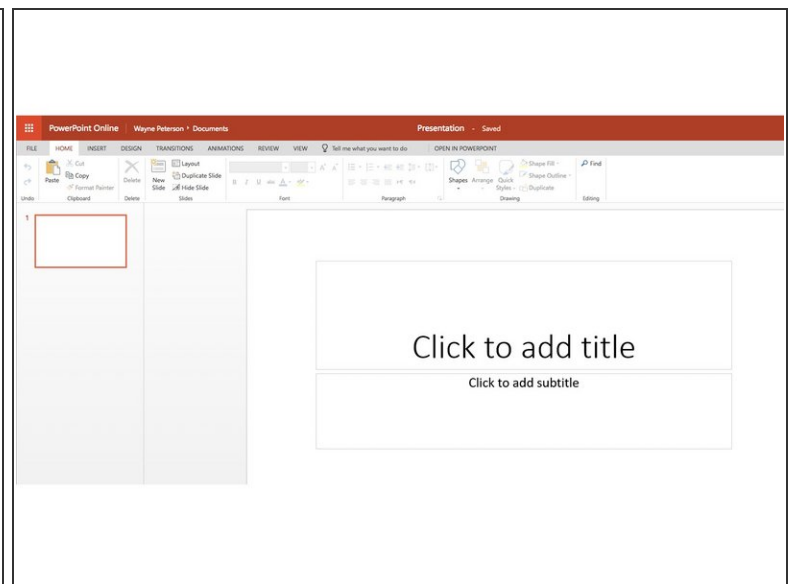

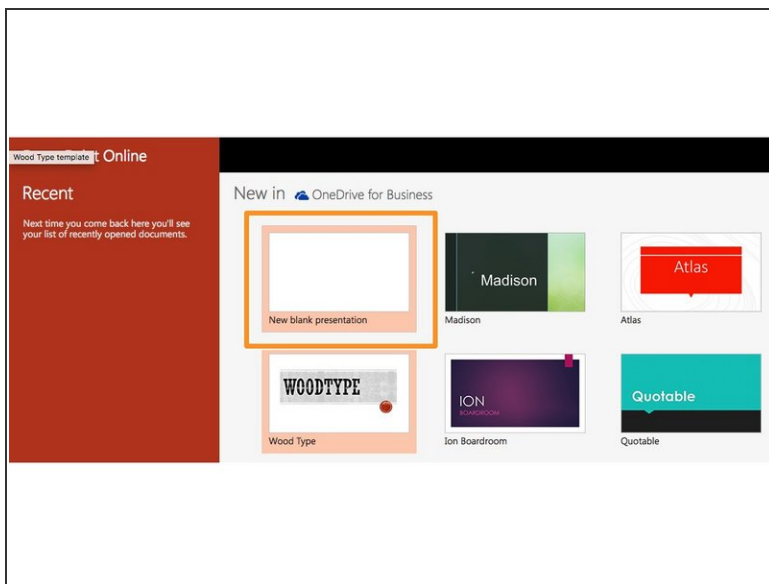

Step 1 — Accessing Microsoft PowerPoint Online

- From the Office365 dashboard, select **PowerPoint**.

Step 2

- Select a template or simply select **Blank Presentation**.
- You will then have a new powerpoint document to use within your web browser.
- ⓘ The document auto-saves to your OneDrive as you type. You have the option of exporting the document to your desktop through the normal Save menu.
