

Installing Module - Case Fan Assembly

Attaching the case fan onto the cover.

Written By: Robert Kirk

**TOOLS:**

- [2.5mm Allen Driver](#) (1)

**PARTS:**

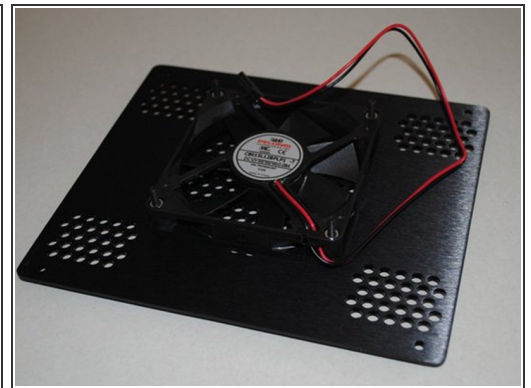

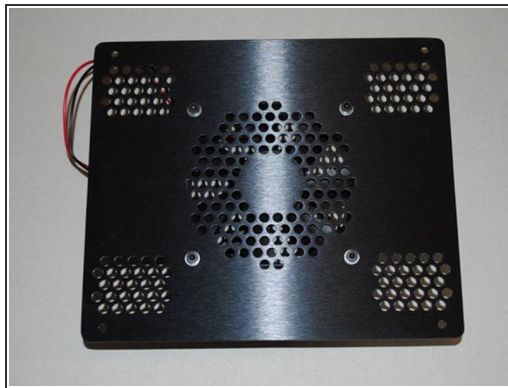

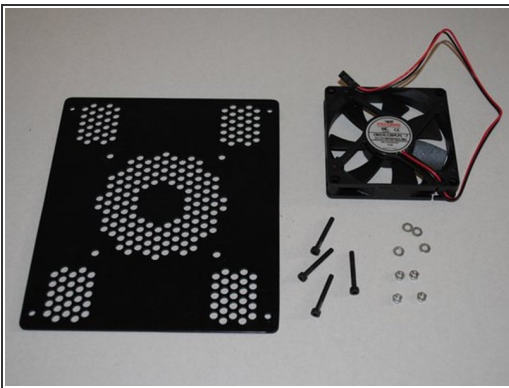

- [Electronics case cover](#) (1)
- [Fan with connector](#) (1)
- [M3 x 25 SHCS](#) (1)
- [M3 Washer](#) (1)
- [M3 Nut - Zinc Plated](#) (1)

Step 1 — Installing Module - Case Fan Assembly

- Gather parts and tools for assembling the case fan.
- Photo 1 - 2.5mm Allen Driver
- This entire component was already assembled. This step will not be necessary with the kits we have.

Step 2

- Install Fan onto electronics cover using M3 Washers and M3 Nuts.
- Be sure to have the direction of air flow blowing away from the cover
